We are unveiling 2 exciting new announcements at ABA TECHSHOW 2019.

Announcing Actionstep Express

Designed especially for the solo to small law firm, Actionstep Express is a new lite version of our popular Actionstep practice management solution. We've built in the smart step-by-step workflow that Actionstep customers love, without the complexity that larger firms require. We're in the early release stage of this exciting new product, which means the official launch of Express is only a few short weeks away.

New QuickBooks Integration

The hotly anticipated integration with QuickBooks is nearly complete. New customers on our Actionstep Express product will have a simple click and connect option with either QuickBooks or Xero for accounting integration.
